## PROFILE

I design brand systems and then keep them running: the posts, the Reels, the captions and the calendar, week after week. I run my own small studio, by Faye, where I do all of it for a US real estate broker from Berlin, and I write, shoot and edit short films of my own. I'm looking for a part-time remote role in design, social or video.

US & EU citizen · no sponsorship needed | Part-time, 20–25 h/week | Remote · US or EU hours

## EXPERIENCE

### Founder & designer, by Faye — 06/2026 – now

My own social media studio for US real estate agents · Berlin, remote · byfayesocial.com

- Run a Boston RE/MAX broker's Instagram end to end: market audit, brand kit, content calendar and 40+ posts, carousels and Reels, all posted by me.
- Built his website and lead capture (talktoelias.com) and my own studio site.
- Wrote and ran an email campaign to about 2,000 US agents (about a 2% reply rate), and answered replies with personalised spec videos and sample pages.
- Script, voice and edit short videos, including sound design. I use AI tools such as Claude Code for production, and direct and edit everything they make.
